

PETITION TO THE GOVERNMENT OF CANADA TO RESTRICT NIGHT TIME
FLIGHTS OVER CALGARY CITY PROPER FOR NOISE ABATEMENT
PURPOSES.

WHEREAS: Certain class of older aircraft flies over Calgary proper at nighttime.

Whereas: Unmuffled older aircraft with turbo propeller engines generate excessive noise impacting 3000 to 5000 Calgarians per mile as they fly over the city proper.

Whereas: Greater Toronto Airport has nighttime flight restrictions for noise Abatement Purposes, Calgarians too would like similar consideration to enjoy the peace and quiet of night time residential neighborhoods.

We the undersigned residents of Calgary, Petition the Government of Canada Through the Department of Transport to restrict the hours of operation of un-muffled Turbo prop aircraft at the Calgary Airport (including but not limited to Swearingen Metro Liners-SW3/SW4/SW5's) to daytime hours being 7:00am to 11:00pm, through application of specific regulations for this class of aircraft.
